### INSIST NOTES BE ACCEPTED INSTEAD OF COIN OF REALM

Canadian Government Holds Gold to Amount of One Hundred Million.  
SYSTEM IS HELD AS MODEL OF SECURITY  
Best Means of Preserving Integrity of Financial and Banking System.

Ottawa, Aug. 5.—It is understood that the government took the step of authorizing the chartered banks to insist upon payments being accepted in notes instead of gold and also of authorizing the issuance of reserve certificates of bank notes only after consultation with the leading financial men of the country. The heads of the principal banking institutions in Canada met in Ottawa and had a long conference upon the situation with Mr. W. White, minister of finance. After the conference closed the finance minister made his announcement to the press that the banks could make their payments in dominion notes and not in gold and the banks would be allowed to issue against securities to the amount of 15 per cent of their combined paid up capital and reserves.

**Stopped Gold Payments**  
This is the first time that Canada has ever taken such action in regard to gold. In doing so now, Canada is following the example of the leading nations of Europe who have stopped gold payments that they may not be obliged to issue the amount of the gold in the treasury for every dollar of gold they have issued in notes.

**Model of Security**  
The Canadian system has been held up as a model of security and elasticity. The minister of finance, and the financiers who he consulted decided upon the step announced yesterday as the best means of preserving the integrity of the financial and the banking system of the country.

The bank statement issued at the beginning of July the Canadian banks held in the value of twenty-nine million in Canada and seven millions outside Canada. It is understood that during the past month the holdings of gold by the banks in Canada have been considerably increased.

### MAIL FOR EUROPE IS DOWN TO ONE SAILING A WEEK TEMPORARILY

Washington, Aug. 5.—Postmaster General Burleson today completed temporary arrangements for handling mail for Europe under conditions imposed by the withdrawal of many liners from service on account of the war. At least one mail to Europe each week will be assured by vessels of the American line in the event all the big German, French and English ships being taken from service. Ships flying the Italian, Dutch, Norwegian or Swedish flags would be available at times to carry the Atlantic mails.

The international money service between the United States and Belgium was suspended today at Belgium's request.

## ENGLISH BUSINESS NOW PRACTICALLY AT A STANDSTILL

**German Vessels in British Waters Captured as Prizes of War—Government Commanders Horses From Private Companies—Schools Fitted as Hospitals for North Sea Naval Battle.**

London, Aug. 5.—Although five of the great European powers—Austria, England, and France, Germany and Russia—are at war and millions of men on land and sea under arms and ready to strike, developments of prime importance were few today. The cutting of the German telegraph and telephone connections and the severance of the German transatlantic cable virtually cut Germany from communication with other countries. Reports from France, Belgium, Holland and Russia showed that Germany's armies were steadily moving forward east and west and that her advance posts were in contact with the opposing Russian and French armies. In England preparations were rapidly completed for naval activities, after the declaration of war last night, but the authorities would not permit any leakage of news as to military or naval movements.

**In British Waters.**  
Several German steamships in British waters, including the Belgica, with 73 German reservists and a quantity of foodstuffs on board, were declared prizes of war. The Maria Leonhardt in the Thames suffered a similar fate.

The British government today commandeered the horses belonging to express companies and big department stores, thus causing almost a suspension of business.

On the coast of the North Sea, where it had been erroneously reported that a naval battle was in progress last night, the British government has taken over all schools and other public buildings for conversion into hospitals in readiness to receive the wounded men after the expected important naval encounter between the German and British fleets.

Volunteers were requested for the British army and this was taken as an indication that an expeditionary force was to be sent out, but no authentic information on this point was obtainable.

**Everything in Readiness.**  
In France the minister of war declared the mobilization to have proceeded satisfactorily and everything to be in readiness, with General Joffre, commander-in-chief, at the frontier. As the Black Sea has been tightly closed by Turkey's shutting the Dardanelles and Bosphorus in order to maintain her neutrality, the Russian fleet there has had no difficulty in taking German and Austrian vessels. Austria and Serbia appear to have stopped their activities or at least to have put a strict censorship on the news of any important events, as no news despatches of importance reached the British capital from these two countries.

### LATEST FLASHES OF THE GREAT WAR.

**Canada Stands United**  
Ottawa, Aug. 5.—The Duke of Connaught, on behalf of Canada, this morning sent the following message to His Majesty King George: "In the name of the dominion of Canada, I humbly thank your majesty for your gracious message of approval. Canada stands united from the Pacific to the Atlantic in her determination to uphold the honor and traditions of our empire."

Paris, Aug. 5.—It is officially confirmed today that the German cruiser Breslau, bombarded Bona, a fortified port town in Algeria. The cruiser fired 60 shots.

Later the Breslau sailed in the direction of Gibraltar and is supposed to have been captured by the British fleet, which is guarding the straits. It is reported from Calais that French torpedo boat destroyers captured two large German sailing ships.

**Small Ports Bombarded**  
Brussels, Aug. 5.—The Belgian Official Gazette announces today that the entire seventh and tenth German army corps have invaded the Belgian province of Liège and have reached the vicinity of Liège. Lieutenant aircrafts were captured by the Germans and some small forts in their advance.

**Ambassador in London**  
London, Aug. 5.—The German ambassador to Great Britain is not expected to leave London before tomorrow. It was reported today that a British cruiser might be placed at his disposal to insure his safe passage across the channel. He visited Viscount Haldane at his private residence this morning.

**German Shoot Alsatians**  
Paris, Aug. 5.—An official announcement today says that 17 Alsatians, while endeavoring to cross into France, were captured by the Germans and summarily shot.

**Bombs Found in London**  
London, Aug. 5.—Detectives during a raid on houses occupied by Germans in London, this morning discovered a large number of bombs and rifles. Several arrests were made.

**No Battle at Granady**  
London, Aug. 5.—The rumor that a naval engagement had occurred off Granady, Scotland, was not at all today by an official denial that there had been a battle in that vicinity.

**Far Eastern Ships Manned**  
Shanghai, Aug. 5.—Guns were mounted today on the North German Lloyd Steamship Prinz Eitel Friedrich at Tsing-Tau. The far-eastern squadron of the German fleet, accompanied by a number of merchantmen, left Tsing-Tau and it was reported that warships were proceeding northward. Large numbers of Chinese coolies have been forced to work under armed guard on the defenses of Tsing-Tau.

**Embassy Buildings Destroyed.**  
Washington, Aug. 5.—The German embassy building in St. Petersburg and the Russian embassy building in Berlin have been destroyed by bombs, according to advices to the state department.

Armies of Republic Repulse Those of Kaiser at Every Point so Far—Mobilization at Paris Proceeding with Despatch—Santos Dumont Offers Services—One-armed General in Command—Japanese Premier Declares that Conflict, if Continued, Will Mean Destruction of Western Civilization—Le Matin Says Wilhelm is Crazy—Embargo Placed on Russian Balances in Berlin.

Paris, Aug. 5.—(Via London)—The French ministry of war today issued a communication stating that German cavalry and infantry were crossing the French frontier everywhere in reconnoitering parties. It added: "A squadron of German dragoons bore down on Villers La Montagne in the department of Meurthe et Moselle but was repulsed by French riflemen." "A regiment of German cavalry advanced as far as Merfontaine in the same department, but fell back before a body of French infantry."

"The French mobilization is proceeding with the greatest order. Most of the reservists already have joined." An excellent spirit prevails in Alsace.

Santos Dumont, the famous aviator, offered his services today to the French government.

The one-armed general, Paul Pau, who fought in the war of 1870, has been placed in command of one of the French armies.

**Mails Being Transferred.**

Washington, Aug. 5.—Postmaster General Burleson announced today that because of the entrance of Great Britain into the general European war American mails were being transferred to ships of the United States, Sweden and other countries not involved.

**Kaiser Wilhelm is Crazy.**

Paris, Aug. 5.—Le Matin, commenting yesterday on the German ultimatum to Belgium, says:

"Had the Kaiser suddenly become crazy he could not have acted otherwise. After forcibly taking possession of the Grand Duchy of Luxembourg's railway to steal a secret door to the enemy, he tries to intimidate and blackmail a worthy and faithful little nation."

It is more than infamy, it is a crime against civilization and the rights of nations. If it was a blunder, Kaiser Wilhelm is crazy."

**Count Okuma Makes Comment.**

Tokio, Aug. 5.—The Japanese premier, Count Okuma, in an interview today expressed his regret that the United States had not been able to mediate in the European conflict which, if it continues, he said, means the destruction of western civilization. Japan he continued, would have been happy to join the United States mediation, but her possible participation in the war as an ally of Great Britain made her an interested party.

The premier said that Japan, if she were compelled reluctantly to intervene would protect British colonies, but under no circumstances would she send a fleet or an army to Europe.

**Embargo on Russian Money.**

Berlin, Aug. 5.—An embargo was today laid on Russian balances at the great banks of Germany. These funds are considered by Germany as property belonging to a hostile force.

**German Fleet Reported Cornered.**

New York, Aug. 5.—A special cable to the American from London says: "It is said on highest authority that the admiralty had received a wireless despatch stating that the German fleet had been bottled up by the British fleet north of Denmark."

## BANK OF ENGLAND RATE BE REDUCED TO SIX PER CENT

**Alleged Deliberate German Attempt to Smash London Market.**

**STATED RUSE TO KEEP GREAT BRITAIN NEUTRAL**  
Government Has Not Yet Decided to Suspend Specie Payment.

London, Aug. 5.—Chancellor Lloyd George announced in the house of commons today that the bank of England rate was to be reduced to six per cent, either tomorrow or Friday. The government, he said, had not yet decided to suspend specie payments.

London, Aug. 5.—The Pall Mall Gazette today makes public reports current in the city to the effect that the heavy selling orders from Germany during the past week or two were really a deliberate attempt to smash the London market and cause a scare in the financial and commercial world so as to keep Great Britain out of the war. The newspaper says it hears that the sum of ten million dollars was expended or had been arranged to be expended for this object with the co-operation of the German government.

## Question of Supply Of Food in England Causes Anxiety

**Scheme to Control Will Probably Be Forthcoming From Government—Price of Beef Rises 10c in One Day—Prevent Artificial Rise of Prices.**

London, Aug. 5.—A British government scheme to control the food supplies of the British Isles is probably to be issued in the immediate future, as the retail stores already are experiencing a shortage. In several districts of London the stores opened for only a few hours this morning.

The price of beef which yesterday was 32 cents a pound, today rose to 42 cents. On market lane the price of wheat advanced today from \$1 to \$1.25 per quarter (eight bushels), while maize rose from \$2 to \$2.50 per quarter.

Millers have decided to make no change in flour quotations, prices fixed at 35 shillings. The insurance question on war risk has been satisfactorily arranged and the disposition on the part of merchants here is more confident with business showing signs of revival.

October wheat sold privately here yesterday at 85 1/4d, or an advance of 4 1/4d over the last official quotation.

Stocks are light and the question of food supply is one that is causing serious apprehension and already prices have jumped up in an alarming manner and the government will do everything possible to facilitate shipments of wheat and other commodities. This supply must of necessity come from North America.

The authorities are taking all possible steps to allay public anxiety in regard to food supplies and to prevent unjustifiable attempts to artificially raise prices. The home office today issued an official statement to the effect that in addition to the four months supply of wheat actually in the country or being harvested there were large consignments of wheat now on the way here, much of which was already near British shores.

There was no conceivable circumstances, it was said, in which a wheat famine could arise, and accordingly fear of a scarcity was groundless. The situation regarding meat was no less satisfactory. The Austro-Hungarian government today took drastic measures to protect the public against dealers charging exorbitant prices for food. A decree was issued calling on producers, warehousemen and dealers to inform the local authorities as to the stocks in their possession. Any attempt to keep secret the extent of the stocks or to raise prices is to be punished by imprisonment ranging from one month to one year.

### CANADA PURCHASES TORPEDO DESTROYERS, A POWERFUL CRAFT

Ottawa, Aug. 5.—Sir Robert Borden made the important announcement that the government has purchased two torpedo boat destroyers from Chile. The destroyers had just completed at the Seattle ship yards for the purpose of Chile. The two powerful craft will proceed at once to Esquimalt for the purpose of the protecting of the Pacific coast. They will be manned by naval reservists now in British Columbia.

### BANKERS APPOINTED TO GIVE VIEWS ON NOTE SECURITIES

Ottawa, Aug. 5.—It was announced today that, should the necessities of business in Canada require the government to issue dominion notes to the banks on the deposit of approved securities by the banks, the minister of finance had appointed the following gentlemen to advise him as to the securities to be accepted: The president of the Bankers' association, Toronto; the general manager of the Bank of Montreal, Montreal; general manager of the Royal Bank of Canada, Montreal; and the manager of the Canadian Bank of Commerce, Montreal.

### CABLE CENSORS ARE ALREADY AT WORK; PRESS WIRE STOPPED

Ottawa, Aug. 5.—The censorship established upon Canadian cable and wireless messages yesterday has apparently got down to business in earnest. The censors have been established at Ottawa and Halifax. A member of the parliamentary press gallery was notified that cables to the London newspapers had come under the displeasure of the censors and had been stopped. The cables contained some account of the government's plans for mobilization, which however, was naturally not of a very definite nature.

# GERMANS CONVERT LINER TO CRUISER ON THE HIGH SEA

Vaderland, Largest Steamer in  
World, Hurriedly Pressed  
Into Service.

DESIGNED AS CRUISER  
IN ORIGINAL PLANS

Will Carry About 10,000 German  
Reservists Mobilized  
in New York.

New York, Aug. 5.—The Vaderland, carrying from 8,000 to 10,000 of the German reserves here, will offer the warships of England, France and Russia in a desperate race across the Atlantic for the safety of a home port. On Sunday Hook and outside the three mile limit, will be met by the swift armoured cruisers, the Dresden, the Stuttgart and the Karlsruhe, one or more of them, and at sea she will be converted into a cruiser. Each of these cruisers is supplied with an extra equipment of rapid fire and machine guns, torpedo tubes and torpedoes. These will be transferred to the Vaderland, the largest steamer in the world, and one of the fastest.

Orders to this effect were flashed in cipher cable messages today to German special officers in this city. These orders were received following the discovery and frustration of a plot by French and Russian secret service men to blow up the Vaderland as she lay at her pier in Hoboken.

**Under Government Orders.**  
Acting under prior orders of the German government, the Vaderland has been loaded with a supply of coal, sufficient for three or four ordinary transatlantic voyages. Luxurious state room galleys have been converted into coal bunkers.

Thousands of tons of provisions have been taken on board—they are not of the quickly perishable variety. The giant liner is ready to sail from her moorings at five minute's notice. Her orders are to slip away secretly from her moorings at five minute's notice.

**Anxious To Get Home.**  
Copenhagen, Aug. 5.—The American steamer here was practically in a state of siege today. Several thousand citizens have reached this city from Hamburg, whence they had intended sailing for America on the Imperator and other liners. Most of them left their baggage behind in Germany, and are now waiting for the Imperator to reach America by way of England while others will sail on the Danish liner United States.

**\$25,000,000 for Ships.**  
London, Aug. 5.—The German government has put in the neighborhood of \$25,000,000 for the two Turkish battleships which it has purchased from England, and which it has taken over. The one which has been renamed Agincourt will be completed in the British yard. It was only yesterday that German reserve officers were ordered home.

The naval authorities and the general staff fully realized that to order her to sail from the neutral port of New York was taking a desperate gamble with fate.

**GERMANS STRANDED  
IN FRANCE GIVEN  
THEIR FARES HOME**

Paris, Aug. 5.—Germans began to crowd today into the American consuls here which were charged with their interests during the hostilities. By arrangement with French government Consul General Thiersch, a certificate of identification which must be presented to the police commissary of the district in which the person is domiciled. In exchange the commissary gives him an authorization to depart by train to some town in the west of France where he must remain until the war is over.

Most of the Germans are destitute and members of the consular staff have provided many of them with money from their pockets. No money fund is available for the purpose. One wealthy German family expelled from their home by the French authorities has arranged for the departure of two trains to London and two to Dieppe and ten for transportation of passengers directed to cross the channel.

Arrangements also have been made for connecting steamers to take the trains and carry the passengers to Folkestone, New Haven and Southampton.

A large number of Americans have applied for tickets.

**Germans Invade Holland**  
London, Aug. 5.—The Germans have violated Dutch territory at Tielburg. It is reported that German troops with resistance after crossing the River Meuse at Eyden, Belgium.

Orders for Mobilization of  
Canadian Army of  
21,000 Men.

Ottawa, Aug. 5.—At the conclusion of last night's cabinet council meeting, the prime minister announced that parliament would be summoned to meet on Tuesday, Aug. 18, two weeks hence. The first business of parliament would be to vote funds required for defence purposes and to ratify the governor-general's warrant which authorized the raising of the militia. There also will be legislation necessary to localize action which has already been taken by the militia department under authority from the cabinet exceeding some of the powers granted by the militia act. These refer to emergency action in the mobilization of troops for special purposes with expediting money for which there was no parliamentary sanction. The militia department has taken steps to place guns at Glace Bay and other cable stations for testing them against a possible attempt by a German cruiser to cut communication with Great Britain. The orders for mobilization of a Canadian army division of 21,000 men at Quebec will be issued today after details have been finally passed upon by the cabinet.

# ALL EUROPE NOW READY COMMENCE ARM STRUGGLE

Germany's Reply to England's  
Ultimatum Has Set Pot  
Boiling.

ITALY, ALTHOUGH NEUTRAL,

Sweden as Yet Fails to Reply  
to Queries as to Her  
Attitude.

London, Aug. 5.—Great Britain declared war on Germany last night. The immediate decision of the British government for which the whole world had been waiting came before the expiration of the ultimatum issued by Great Britain in her ultimatum to Germany demanding a satisfactory reply to the expiration of the ultimatum.

Germany's reply was the summary rejection of the request that Belgium neutrality should be respected. The British ambassador at Berlin thereupon received his passports and the British government announced that many that a state of war existed between the two countries.

The following statement was issued by the foreign office at 12:35 this morning: "Owing to the summary rejection of the request made by his majesty's government for assurances that the neutrality of Belgium be respected, the British ambassador at Berlin has received his passports, and has declared to the German government that a state of war exists."

Yesterday afternoon, Sir William Edward Goschen, the British ambassador in Berlin, was seen by the British ambassador at Berlin thereupon received his passports and the British government announced that many that a state of war existed between the two countries.

# Women Are Thinking Now of New Collars and Girdles

—INDEED WHO COULD BLAME A WOMAN FOR turning her thoughts thuswise when she knows that for every change of the moon almost the fashion undergoes alterations of major or minor consequence?

—Where a twelve month ago a woman found herself satisfactorily mirroring fashion in a collar of gauze whaleboned almost uncomfortably up to her ear lobe, today she considers the propriety of the very reverse or inverse.

—Simulating the flowers in their unfolded loveliness—copying the lissome pinions of the wild fowl—resembling the translucent exquisiteness of the butterfly's wings, you will find next season advance styles in women's collars and other neck fixings.

—You must treat yourself to the sight the air affords— and tomorrow.

**And What of the Girdles?**

Perhaps one will say the new crush girdles of such seemly things as moire velvet, velvets and tiffeta, tend to promote short-waisted figures—and truth to tell this is more or less the case. When rather a majority of fashionable women are in favour of the latter, is it any wonder that the fashions of high class belts are hastening to comply and produce the most handsome for Fall and later wear? These too must be seen to be fully appreciated. We will be glad to tell you more about them when you call.

**FRENCH PREMIER TELLS OF EVENTS LEADING TO WAR**  
Paris, Aug. 5.—Premier Viviani made the French government's position in the war in the chamber of deputies yesterday and his remarks created the deepest enthusiasm.

He said: "France has been unjustly provoked; she did not seek the war. She will defend herself against Germany and other powers by the side of Germany in the conflict between the two countries."

Against an attack which violates all the laws of equity, and all the rights of nations we have now taken the necessary defensive measures. They will be carried out rigorously, methodically and calmly. The mobilization of the Russian army is proceeding with remarkable energy and boundless enthusiasm."

The premier continued: "Belgium has now 250,000 men in arms prepared to defend with magnificent ardor the neutrality and independence of their native land. The English fleet is mobilized to the smallest vessel and the English army is mobilizing."

Austria for the moment has retired from her campaign against Serbia for fear of the French. Russia and Serbia has mobilized with the reported intention of invading Bosnia.

**GERMAN OFFICER FIRST VICTIM OF ACTUAL CONFLICT**  
Belfort, France, Aug. 5.—A number of German soldiers were killed today and brought into Belfort. A squadron of the 11th French dragoons captured the French town of Juchery. Several hundred Austrians, Swiss and Italians have entered here and have been ordered to be sent to the advanced outpost.

**66,000 PAID IN FINES TO JUDICIAL BRANCH**  
The new law of fines has been in force for a few days. The judicial branch of the department of Attorney-General has reported that the fines have been paid in full.

**Why Germany Wishes to Cross Belgian Territory**  
London, Aug. 5.—The vital importance of Belgium in the fact that unless Germany may move across Belgian territory, neutralized by treaty, an invasion of France would have to be through the heavily fortified French frontier proper. The entire north-eastern frontier of France is roughly 100 miles in length. For a distance of about 250 miles this frontier line separates France from Belgium and Luxembourg. The remainder, about 190 miles, separates France from Germany.

With the neutrality of Belgium observed, the scene of action would be reduced to the splendidly fortified Franco-German frontier proper. This line of defense runs, broadly speaking, from Verdun to Nancy, to Epinal, to Belfort and to Desancon. Each one of these cities is the center of a group of fortifications extending northwest and southeast, and all facing the German border. Each has its outposts and its flanking protection and the line is said to be virtually continuous for the greater part of the entire distance between Luxembourg and the Swiss border.

# BRITISH PEOPLE HAVE CONFIDENCE IN THEIR FLEET

Commander of Navy Sir John Jellicoe Has All the People's Respect.

**LOYD GEORGE'S PLAN TO SECURE SHIPPING**  
Public is Surprised at Preparedness of Authorities in Such Emergency.

London, Aug. 5.—Crowds gathered about the government offices during yesterday and cheered the ministers "whenever they appeared and pressed around the motor cars. The railway depots were filled with army reservists and territorial in khaki but there were no flags flying on the buildings and the great mass of people went about their ordinary occupations with serious faces.

The first effects of the war are found in the increased prices of the necessities of life, but the people are reconciled to it.

The Liberal papers, the Chronicle and the Daily News have come into line and are supporting the government. It is 75 to 1 to be due to Sir David Lloyd George's speech on the attitude of the government and giving details of the situation in the house yesterday.

The guardian representing the great commercial interests of Lancashire continues its opposition.

It says: "It is mockery to throw on the heads of commoners at a moment of notice and in circumstances of great excitement the responsibility for decisions of a peace policy that has been maturing for years."

Viscount Bryce, the former ambassador at Washington made the statement of a manifesto expressing the hope that the government has not exhausted the possibilities of diplomacy. But those voices are drowned in the deep tide of popular belief that England's interests and her national life compel her to resort to arms.

**David Lloyd George, chancellor of Exchequer, announced in the house his scheme for insuring shipping against war risks.**

"Because this scheme is promulgated in the midst of an emergency" said the chancellor, "it is not an ordinary panic scheme prepared in an emergency."

The committee of imperial defence has labored on the plan for more than a year, he said. Its aim was that in the case of war British commerce should not be interrupted by the seizure of sea routes, and to insure that insurance rates should not go so high as to cause any considerable rise in prices.

"We are perfectly convinced," he continued, "that with the protection of the British navy we can make certain of that vital condition."

The work is to be undertaken by the state insurance office with a rate rate premium payable of variation from time to time. The government was insuring over 80 per cent. of the hulls of vessels. In respect of voyage risk on the outbreak of war, no premium would be charged, but it would afterwards.

The chancellor expressed the hope that the time for putting the scheme in operation had not arrived, but if it had, the plan would be to relieve the anxiety of the mercantile world.

A royal proclamation today appeared to all citizens in the present crisis to respect the orders of all military and naval officers and to render them all assistance in their work.

By another proclamation the government took control of the railways which are to be operated by the state.

The complete preparedness of the government to place all the machinery of the country on a war footing, in which Germany has been supposed to be far ahead of her neighbors came into revelation to the people, who in ordinary times, are chronic grumblers over the supposed backwardness in military organization.

**Confidence in Fleet.**  
Vice-admiral Sir John Jellicoe, in whom the nation reposes the utmost confidence, has been gazetted commander of the British fleet. Field Marshal Earl Kitchener will undoubtedly take charge of the army. The announcement is made that he has been called to the war office for administrative work, without his status being designated, but it is not probable that he would work under any other's direction.

Field Marshal Sir John French, after a brief estrangement from the army as a result of the Ulster issue, has been appointed inspector general.

The mobilization of the army reduced principally by motor buses, which left London for strategic points crowded with soldiers and territorials.

**TWO COPPER SMELTERS IN BRITISH COLUMBIA INDEFINITELY CLOSED**  
Nelson, Aug. 5.—Because of low price of copper and curtail market caused by the European war the Grand and British Columbia copper smelters will be closed down for the former this morning and the latter the latter this afternoon.

The Consolidated Copper Company, which has been closed since the outbreak of the war, has now silver output will continue operations.

## News of the Markets

**Wheat Firm in Chicago.**

Chicago, Aug. 5.—Reports emanating from one of the largest buyers in the 'change that export buying of American wheat had already started on a high basis, decided vigor into prices near the close yesterday. The upward flight that followed was the second which had taken place after the opening, and resulted in a spirited finish, 2 1/2 cents to 2 3/4 cents above last night. Cuts finished 1/4 to 1/2 ct. up.

Highest prices touched by wheat yesterday were immediately after the receipt of premature announcements that the bill to admit foreign shipping to American registry was only awaiting the signature of President Wilson, when it was stated that the matter of fact the matter had not up to then reported to the senate, prices dropped back more than 2 1/2 cents from the extreme high level, which was 2 1/2 up and compared with last night. In the last hour, though, the market was again advancing with a lively swing. Two out of three of the options wound up at the top values of the day.

Advises that the British government had agreed to carry war risks for buyers on open contracts for wheat, started values up grade almost as soon as the dealing had fairly begun. It was said the British government was to the United States, and the fact that Chicago buyers today received a million in currency and gold from Washington, counted materially in restoring confidence and helping to lift values.

Data reflected the strength of other grains, but the huge arrivals from newly harvested crops, 847 cars prevented more than a moderate rise in prices.

Hogs.—Receipts, 3,000 lower. Light, 65 to 75. Mixed 710 to 760. Heavy, 670 to 720. Bulk of sales, 740 to 810. Sheep.—Receipts 10,000, steady. Yearlings, 500 to 600; Lambs, native, 6 to 10.

**Heavy Gold Shipments.**  
Montreal, Aug. 5.—More gold arrived in Montreal today, one of the largest consignment being valued at \$1,000,000 to the Merchants bank. In all, it is believed that between \$1,000,000 and ten million dollars have come in on the movement which started last week.

**Wholesale Prices of Food Stuffs ARE ON STEADY ADVANCE**

Montreal, Aug. 5.—The wholesale prices of foodstuffs were advanced in Montreal yesterday, and it is anticipated that the advance of the week at the retail prices of practically every commodity will follow suit. The decision to advance prices was based on the wholesale market, after informal discussions on the matter. Meats have gone up in price, bacon being a cent and a half higher, and hams, a cent and a half higher. Bread remains at the old price, though flour has increased in price thirty cents a sack.

**DEATH OF MAN DUE TO GROSS CARELESSNESS OF THE CONTRACTORS**  
The inquest into the death of Mike Maureka, the man who was killed on the hoist at the arts building at the university building a few days ago, was held last night at Cussey and McKinley's undertaking parlors, and after more than three hours' were taken up in the securing of evidence, the jury returned the following verdict:

"That Mike Maureka came to his death on August 3rd from a fall sustained by a fall on Thursday, while in the performance of his duties as laborer at the arts building at the university, the cause of death being a fracture at the base of the skull. We, the jurors have come to the verdict that said accident was due to gross negligence on the part of the contractors, George A. Fuller, contracting company, owing to the faulty construction of the hoist, the timber used being of poor quality and not of proper size. We recommend that all hoists and scaffolding, be examined by a competent inspector before being used by employees, and that notices about the posted on all hoists regarding their use. The jurors were: Robert Hopkinson, George Low, C. Cathcart, C. Dickson, W. J. Carr and F. J. Raby.

# COMMERCIAL CABLES TO THE AZORES

Severing Communication Between Emden and the Azores Means Complete Isolation

**BELGIAN FRONTIER TOWN IS CAPTURED BY TUETONS**  
German Fleet is Sighted Near East Coast of Baltic Sea.

Boston, Mass., Aug. 5.—The cutting of the cables of the Commercial Cable company, and the German Atlantic cable company, was announced at the local office of the Commercial Cable company today. Officials of the company here said they believed the lines were cut by British war vessels, off the American coast.

New York, Aug. 5.—Officials of the Commercial Cable company stated that their lines of communication between here and Germany had been severed at some point between the Azores and the European continent. The cable between here and the Azores is understood to have been cut.

News of the cutting of the cable came out when the Commercial Cable company was making the following brief announcement:

"Cannot accept messages for Germany, Aug. 5, 1914."

New York, Aug. 5.—Direct cable communication with Germany was cable lines from New York to London via the Azores, were cut about 10.30 a.m. at some point east of the Azores, possibly by British war vessels. The Commercial Cable company, which operates the American end of this line, made an announcement that it had refused to accept messages for Germany. It was denied that the line had been cut by British war vessels on this side of the Atlantic. The cable was working according to its usual course.

Chas. P. Adams, second vice-president of the Commercial Cable company, said there was no trouble with the regular commercial cable company line runs from New York to Nova Scotia and thence to points on the English coast.

Communication with England over these lines was still maintained.

No hope was held out, however, for any immediate restoration of communication with Germany over the direct lines.

The cutting of the German cable between Emden and the Azores virtually completes the isolation of Germany from communication with the outside world, except in so far as messages made by wireless telegraph.

All direct communications with the United States is severed. Hereafter all messages of importance to Germany will have to filter through hostile countries; Russia on the east, France on the west and England on the south.

All the submarine lines, the Mediterranean Sea, belong to the Eastern Telegraph company, a British concern, and the German news that did make its way to southeastern Europe through Austria-Hungary, would not be transmitted over the lines of this company.

News of the cutting of the German lines between Emden and the Azores may be expected at any moment. All ready those lines are in the hands of the authorities who hold them on British territory.

The only other possible telegraphic ally for Germany to the east, on this side she is hemmed in by Russia with whom she is at war. All the cables for Germany to the east, in every direction except to Austria-Hungary, already have been severed.

The cable communication from Germany to the north, Norway and Sweden, which may still be in operation, is comparatively valueless for the reason that news transmitted to reach the outside world would have to be relayed to England.

The Berlin message received by the Associated Press was between 12 and 1 o'clock last night. It was the official account of the German ambassador's formal announcement to the foreign office of the declaration of war and the ambassador's request for his passports. Up to this time direct communication over the line that was severed today had been constant and quick, although subject, of course, to censorship at Berlin.

The Atlantic Communication company, a German wireless organization, has a high power station at Sayville, Long Island, and it is stated that it has at times communicated successfully with Naumen, near Berlin. The company's station at Sayville is now closed for all private business, having been turned over to the German government.

**NOTIFICATION OF CONTRABAND GOODS ON FOREIGN SHIPS**

London, Aug. 5.—The Gazette, the official newspaper, today published the notification of the state of war existing between Germany and England, as well as the notification of the king relating to the merchant vessels of the country with which the British Empire is at war. The order specifies as absolutely contraband, arms of all kinds, clothing and harness of a military character, animals suitable for war purposes.

Articles specified as conditional contraband are foodstuffs, fuel, harness, telegraphs and glass fields.

## SOCIAL AND PERSONAL

### THE GAY WORLD.

Madame Thibodeau will be a bridge hostess Thursday evening.

Mr. and Mrs. Frothingham of Windsor and Mr. and Mrs. Ferguson of Thamesville were guests for a day last week of Mrs. (Dr.) Hope, 153rd street.

Miss Kate McLaughlin, secretary of the South Side Y. W. C. A. is leaving the last of this month for Winnipeg, where she has accepted a similar position.

Mr. Roland Lines is back from a visit to Banff.

Mr. and Mrs. Cyril Budge have returned from their honeymoon and are guests of the bride's parents Mr. and Mrs. Pace.

Miss Lulu Anderson of Regina, guest of Mrs. Archie Panton for a few days, is visiting in Edmonton.

Reports as to the health of both Mrs. Budge and Mrs. J. McNamara are very satisfactory, each doing as well as could be expected under the circumstances.

**Weddings**  
At "Silvercroft," Stony Plain road, on August 1, Miss Nora Marion Lightbody to Mr. Robert Waddell, by Rev. C. D. Campbell, M.A.  
At "The Manor," 408 Fourth street, on August 1, Miss Elizabeth Smith to Mr. Frank McGowan, M.H., by Rev. C. D. Campbell, M.A.

On Saturday, August 1, at the church of St. Michael and All Angels, Edmonton, was solemnized the marriage of Mr. Ernest Fisher and Miss Alice Page, of 1316 45th street, Alberta avenue. Rev. Mr. Harkness officiated.

At St. Peter's church corner of 27th street and Bureau the marriage took place yesterday of Miss Adele Baker to Mr. Kelly of Chicago. Rev. Mr. Davis officiated. The newly married couple will travel for a year finally making Chicago their home.

The recital by Mrs. Jean Blewett, assisted by local talent, given in the McDougall Methodist church last evening, was a most enjoyable affair. The evening was under the auspices of the Women's Missionary society of that church and the attendance must have been most gratifying to the committee who undertook such an event under the prevailing circumstances. Mrs. Blewett was her own sweet self, as usual, and looked particularly well in a gown of Campanella blue charmeuse with, with tulle and draperies of fine black lace. The organ and platform were decorated with quantities of sweet peas. The program opened with a suitable organ selection rendered by Mr. V. F. Hunt. Mrs. Blewett then sang "The Poplar Tree" and received a huge bouquet of pink and white sweet peas. Mrs. Blewett then sang "The Children's Hour," which was followed by a violin selection "Cavatina" by Miss Helen Hunt. Miss Hunt was the gold medalist for violin at the Alberta Musical Festival this year and certainly maintained the

high grade of excellence which she won, in her numbers last evening, which were so well executed, having to respond to an encore. Mr. F. K. McGregor was in fine voice and sang "Even Bravest Hearts" from Faust in his most engaging manner, singing "Mother Macree" for a response. Mrs. Blewett was delightful in all her numbers, but perhaps the place of real estate was Henderson's Housekeeper, a humorous character sketch.

Louise Moore sang two charming songs. We might mention here that the solos were very much marred, owing to the condition of the piano. It seemed such a pity on an occasion like this that the piano was so badly out of tune, that one could hardly forget it even though the selections were so well rendered.

Mrs. Hewitt gave, "Come Out West, John," by request and in her had three numbers was fascinating. Mrs. J. H. Sinclair solo and Mr. McGregor's fine rendering of "Good Bye," brought a musical and literary treat to a close.

Mrs. R. S. Cook, 530 Tenth avenue northeast, entertained informally at the home yesterday in honor of Miss Minnie MacDonald, of Toronto. Sweet peas and California poppies were used for decoration. Mrs. Cook poured her own tea.

Among the guests were Mrs. G. S. MacDonald, Miss M. MacDonald, of Toronto, Mrs. James Turner, Mrs. R. O. Bird, Mrs. Newton, Mrs. H. H. Crawford, Mrs. James MacDonald, Mrs. Holder, Mrs. Way, Mrs. A. B. Ritchie, Mrs. J. Hamilton MacDonald, Mrs. C. J. Tison, Miss Grace Brown, Mrs. Gerrie, Mrs. L. B. Elliott and her guest, Miss Houston of Calgary.

The following telegram was received yesterday by the Edmonton Association of Graduate Nurses:  
"Canadian National association organizing volunteer nursing corps for active service under Dominion government sanction. Each provincial association must assume responsibility for own province. Organization details later. Roll of new enlistments giving credentials and addresses to be forwarded each day to the Canadian National association, Toronto secretary, JEAN L. QUINN."

As the matter is properly within the jurisdiction of the provincial association the telegram has been handed to the president of the Edmonton Graduate Nurses Association of Alberta, and in that capacity, and on behalf of the provincial association, I am glad to receive and forward to the Canadian National association the names, addresses and other particulars of those who may wish to enlist in accordance with the above telegram.

"Thinking of giving publicity to this matter, I am, yours truly,"  
MISS R. W. ARMSTRONG  
President, Edmonton Graduate Nurses Association of Alberta.

**"STAFF OF LIFE" WELL REPRESENTED AT EDMONTON EXHIBITION**  
When the Judges of bread test all the bakers competing in the Campbell and Ottewill special class at the Edmonton exhibition, they won't want anything more to eat for a week. Ninety entries have already been registered in this class, 180 loaves in all, of sweet, homemade bread, from which to choose three winners.

In the association competitions for wheat bread, 52 entries have been made. For brown bread, 26 entries are registered. In all there will be a display of approximately 500 loaves of bread at the coming exhibition.  
The clerk in charge of the entries is still working at the lists, and all these numbers will be substantially increased before August 16.  
In the classes for children under 11 years, the John A. McDougall specials, bread and iced cakes appear to be the favorite viands with the youthful crowd. While these two classes show the largest number of entries, all the other classes will be well contested.

### Theatres and Picture Shows

**PANTAGES THIS WEEK OFFERS COMBINATION OF UNEATABLE TURNS**

The words of the prophet, spoken several days ago, have proved to be true. Pantages theater this week offers a performance which is a "real" thing from the rise of the curtain to the finish. There is not an act on the bill which is not of stellar quality in its own chosen field, and the combination of them all makes a well-nigh uneatable vaudeville show.

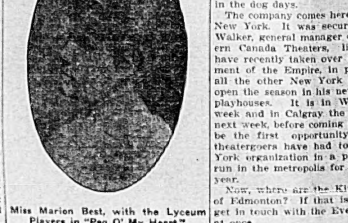

The headliner for the week is Ethel Davis, in a skit entitled "Musical Nonsense." Miss Arnold can sing in quite pleasing manner, her repertoire including the latest and most original songs. Taylor is a very clever piano player, and the combination of the two is pretty hard to beat.

Chester Kingston, in the Chinese Puzzle, is one of the best contortionists that has ever come upon the local stage. His twists and turns are new and he gives a very entertaining ten minutes of enjoyment.

A sketch is ably taken care of by Charles King and Virginia Thornton and company in "The Village Priest." It is a pretty little thing woven round the old theme that a woman's place is in the home, but it is quite enjoyable. It is cleverly written and the acting is all that can be desired.

The fun is being supplied by the three grouch killers, Miller, Packer and Sals. They do a little bit of everything from dancing to singing and do it so well that they are making a host of friends.

**Prices Go Up by Half**  
Liverpool, Aug. 5.—Retail prices of provisions advanced 50 per cent. yesterday. The stores were besieged and in some cases had to close as their stocks were running so low. The local sugar refiners have closed and the grocers are unable to obtain further supplies.

**MISS MARION BEST**  
If there's anything more aggravating than those dabby postal cards you get these days, aimed with just the initials, I'd like to hear about it," said the Popular Girl. "Why will people sign postal cards with just their initials, and vague ones at that? You get one from Switzersland marked 'J.A.' It nearly drives you wild. You know no 'J.A.' except one who wouldn't possibly send you a postal card. Then, after several sleepless nights, you give up the mystery."  
"It must be that a man is so conceited that he's the only person in the world with his particular initials. For it can't be that he's afraid to sign his full name. Postal cards are so hundred things for a man to think it's humiliating to stick his name on them. But dear me, how cautious some men are. You'd think they expected their cards to be used as breach of promise evidence."

### "PEG O' MY HEART" DRAWS CAPACITY HOUSES AT LYCEUM

The S. R. O. sign is greatly in evidence this week at the Lyceum theater. Fascinating "Peg O' My Heart," is holding away and that it is repeating its international success can well be determined by the crowds which are nightly taking the capacity of this popular playhouse.

It is for the Lyceum players to receive the honors as the first stock company in the country to produce this delightful comedy and these popular players are earning the praise which has been accorded them.  
The many witty sayings have made much toward the success of this piece and as one of the metropolitan critics has justly described it: "It is a clear cut comedy that carries an interesting story, interesting to all."

Too much cannot be said for the presentation of "Peg O' My Heart" as seen here this week, as those who have seen the Metropolitan production declare it to be a replica of the original laurette production.

### POLITICAL DRAMA OF EXCEPTIONAL MERIT AT EMPRESS THEATRE

There have been many political dramas during the last 10 years—some good and some bad, some constructive and others destructive. Among the former have been "The Man of the Hour," "The Boss" and many others equally as good. Some of these have been adapted for the motion picture screen with great success. One of the latest dramas of politics that has been screened is "The Mongrel and the Master," from the Essanay studios, which will be the attraction at the Empress theatre for Wednesday and Thursday.

The story of this film concerns two plain everyday hooligan men, who later become interested in politics, one turns statesman, the other—a modern politician. There is a lot concerning the election of a mayor with the necessary renegade which is so essential in pictures. This production is positively a photographic masterpiece.

The story grips and holds you—it will thrill you.  
The Empress management has also secured a first class comedy equal to anything they have shown at this theatre heretofore, and another drama will assist in rounding out a first class program.

The organ accompaniment of Musical Director Paul continues to be an excellent and much appreciated feature of the Empress bill of entertainment.

**Had Arm Fractured.**  
While attempting some difficult feat on the horizontal bar in the playground at the King Edward school yesterday evening, the 13-year-old son of G. M. Jamieson, 315th avenue northeast, south side, sustained a fracture of his right arm.

In a few days at the Empire theater, that refreshing comedy "Kitty Mackay" is to be presented, and the Evening Capital wants all the Kitty Mackays in the city to see the play. To that end a number of seats have been secured and the offer is made that all the holders of that name, whether widows, married women who had the honor to bear that cognomen before their husbands bestowed a different one upon them, young ladies who have not yet had husbands, and children who have not yet reached such an age, any of these and all of them will be accommodated with two orchestra seats for the opening performance of the play here on Thursday evening, August 12, by merely coming to the Evening Capital office to establish their identity.

Even that is not the whole story. If there happens to be a Kitty Mackay who comes from the famous Mackay village of Drumchettie, the fact will be her passport to a box at the Empire at the expense of the Evening Capital.

This Kitty will also have the privilege of meeting her namesake of the play, in the person of Marjorie Murray, the star actress who portrays "Kitty" so delightfully in the play.

The play, "Kitty Mackay," is one of those sweet, clean comedies that have been the means of showing that public opinion will support drama that does not deal with prurient sex problems.

The company comes here direct from New York. It was secured by C. P. Walker, general manager of the Western Canada Theaters, Limited, who have recently taken over the management of the Empire in preference to all the other New York successes to open the season in his newly acquired playhouses. It is in Winnipeg this week and in Calgary the first half of next week, before coming here. It will be the first opportunity Edmonton theatregoers have had to see a New York organization in a play that has run in the metropolis for more than a year.

### ATTRACTIVE FEATURE FILM IS ENGAGED BY BIJOU MANAGEMENT

"The Rosebush of Memories," a film as attractive as the rosebush is fragrant is the feature on the program at the Bijou theatre for Wednesday and Thursday. Nothing quite so novel in conception has been offered at the popular 101st street photoplay house, and it is certain to interest the most jaded lovers of the movies.

An old gardener who takes a great pride in the culture of rose bushes, as much as he does the youthful lovers. The lovers marry, but they come upon dark days, and after a quarrel they part, and seek different paths. Eleanor places a gold band ring on the beloved necklace before she leaves her old home.

Years pass, and Eleanor, wearied of wandering returns to her old home. The gardener discovers her presence and his interest in the girl now grown to womanhood is revived. The gardener also discovers that Eleanor has returned to the village in search of a home. Ogilvie is found in a real estate office, and the gardener makes it a point to have the real estate agent direct Ogilvie to the home of Eleanor.

Once there Ogilvie finds the old rosebush, and singularly discovers the gold band ring grown to the stalk of the rosebush. He looks up and before him sees his wife. The gardener, always the watchful guardian, makes it a point to reconcile the couple.

The life of the circus is always interesting. There is an atmosphere of the wild and the ring that has an indefinable attraction that cannot be overdone. "Sawyer of the Circus" tells a pretty good story not unmingled with an element of tragedy, and the settings are thoroughly realistic and attractive.

GREAT BRITAIN AIDING SCIENTISTS FROM U.S.

Half of Natives in Section of British Guiana Affected by Malaria.

Washington, Aug. 5.—The campaign of the Rockefeller Foundation against the hookworm, which has been successful in the southern states, has been extended into a world-wide undertaking with a view to putting this parasite, which is a scourge to the tropics, under control.

The work in the southern states and Porto Rico was conducted by the Rockefeller Foundation in co-operation with state and local authorities.

The new work is being done by co-operation with the International Health Commission, another branch of the Rockefeller Foundation.

Wickliffe Rose, director-general of the International Health Commission, has just returned from a trip around the world in the interest of this larger work in conjunction with government agencies.

Mr. Rose found Lord Kitchener keenly interested in the work and eager to have the co-operation of the government and the medical community against the hookworm.

Mr. Rose received in the same spirit of the commission in a systematic campaign against the hookworm.

Measures against hookworm disease were instituted in Egypt by the medical missionaries 15 or 18 years ago, and more recently the government has undertaken the work.

Now that the International Commission on invitation has agreed to lend its cooperation, the work will be carried on a much larger scale.

The fight against the disease will begin in the district of the Nile, which has been the most prevalent in the world.

Traveling eastward, Mr. Rose visited Ceylon, Malaya and the Philippine Islands, where he studied the extent of the disease and conferred with authorities concerning measures for its control.

Returning by the Pacific route, he has had opportunity to procure information about the existence of hookworm infection in China, Japan and Korea.

In British Guiana an extensive campaign is being undertaken in the Petrolia district, which has been the most prevalent in the world.

In one of these districts every person has been examined for hookworm disease. Exceeding 60 per cent were found to be infected.

The hookworm has been brought into the country by the medical missionaries in the southern states, where a systematic campaign has been conducted by the Rockefeller Foundation.

To Printers and Publishers:

We beg to announce that we have started in the business of typesetting for the trade only. We have one of the best linotype plants in the west, and can guarantee a production of 300,000 ems per day; customers can rely upon a prompt delivery of all copy sent in. We quote you the following scale of prices for solid or leaded matter read and corrected:

6 point ..... 45c per 1000 ems.  
7 point ..... 50c per 1000 ems.  
10 point ..... 55c per 1000 ems.  
12 point ..... 60c per 1000 ems.

For 250,000 ems and over we cut 10c per 1000 off the above prices.

Customers are charged 12c per pound for metal, which amount will be refunded when the metal is returned, less 1c per pound for waste and deterioration.
